MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or, if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortisation.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Jose M. La Fuente,
Secretary.

Brothers,
American Dentists.
(Formerly of MONTEVIDEO,)
Associated with Don TOMAJ COQUET.

108 CALLE MAIPU

Having received several very important improvements, viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel. Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrs again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incerness that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,110 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

RODOLFO NEWBERY,
Brothers.

NEW ADVERTISEMENTS

THERE IS NOTHING LIKE TIMELY TREATMENT—The colds and violent coughs prevailing in all climates where there are sudden changes of temperature, are apt to quickly degenerate into congestion of the lungs, unless an effective remedy is taken at once. The amous Pectoral of Anacahinta is the best remedy in all such cases. It acts powerfully in relieving and allaying the local inflammation. It soothes and heals the irritated membranes and in ten out of every twelve cases will effect a complete cure. One spoonful of Lanman and Kemp's Pure Cod Oil, mixed with two spoonfuls of the Pectoral, will facilitate the recovery.

Max Havelaar

BY
MULTATULI.

It is difficult to say whether Max Havelaar is more interesting as a novel or powerful as a political pamphlet. From either point of view it is of rare and first rate excellence. In its life-like actuality it constantly recalls Defoe, while in its tender and original humor it suggests Storne in his best moods.—"Westminister Review," April, 1868,

* * * That is the whole story. A book which combines more humor, knowledge of character, high thought, deep pathos, and vigorous political intelligence than any we have read for a long time.—"Evening Star," Feb. 14, 1868.

The story is remarkably clever, a rollicking, eccentric, grotesque and satirical humor overflowing on every page. It is unlike any other book that we have read * * * Some of the episodes, that of Saidjah, for instance, are manifest creations of an imaginative genius of no ord nary kind.—"British Quarterly Review," April, 1868.

It is a novel in form, but in reality a political pamphlet. The revelations contained in it startled the country, and have ever since formed the ground for contention in the legislature. Although Max Havelaar may seem less attractive to many who read nothing but novels than the morbid and silly stories which are in demand at circulating libraries, yet by other and more judicious readers it will be heartily welcomed.—"Daily News," Feb. 10, 1868.

A more stinging satire of the lower propensities of the Dutch could hardly be conceived than that embodied in the Amsterdam coffee broker, Batavus Drystubble, (who) stands out as one of the most remarkable embodiments of money grubbing Pharisaism which literature has yet produced,

Thackeray himself could not have surpassed this scathing page ('God so directs all things that orthodoxy leads to wealth," etc.). It is immortal, come what may to the book that contains it.—"Contemporary Review," April, 1868.

TUESDAY JUNE 23, 1874.

DEPARTMENT OF ENGINEERS.

REPORT FOR 1873.

The last year was one of unusual activity, constructing 4 railways, 4 provincial highways, 1 road over the Andes, 3 bridges, a custom-house, repairs of 22 colleges, embankment at Santiago, and experimental channel for the port of B. Ayres. Between Tucuman and Salta the highroad had to be suspended, owing to the engineer and workmen falling sick. The staff of the Department comprises 19 engineers, who travelled over 45,000 miles during the year.

RAILWAYS.

Cordoba and Tucuman, 340 miles, is going ahead rapidly in the first, second and fourth sections. Earthworks completed represent 872,452 cubic metres, and the total sum paid to Telfener and Co. up to close of 1873 was $1,158,191. The constructors will have to make great efforts to finish the line by Sept. 1876 as stipulated.

Andine line to Rio Cuarto, 83 miles, was opened to traffic last November.

Rio Cuarto to Rio Quinto, 77 miles, begun by Rogers and Co., in Nov. 1873 must be concluded by Nov. 1875, at £5200 per mile.

Port Ruiz and Gualeguay, 6 miles, works interrupted by the war, but now resumed by Mr. Huber and will be ready for traffic by July 1874.

East Argentine, 35 miles open from Concordia to Federation, and works so far advanced on the second section to Monte Caseros that it will probably be complete this year.

B. Ayres to San Juan, concession to Clark and Madero at £4,750 per mile.

San Juan to Chile, concession Clark and Sarratea at £9,500 per mile.

Corrientes to Mercedes, concession to Furness and Villanueva at £8,000 per mile.

Tucuman to Jujuy, proposals called for.

Totoralejos to San Juan, proposals called for.

B. Ayres to Ensenada, company in treaty with Government for sale of the line; engineers making valuation.

B. Ayres to Montevideo, the two projects are chimerical, as the cost of bridging the Parana and Uruguay would be enormous.

HIGHROADS.

Uspallata; this road over the Andes was improved by Mr. Charles Mallmen with 105 Chilian and 65 Mendoza workmen, many dangerous passes smoothed, at a cost of $36,000, being $4,000 less than voted by Congress.

Catamarca and Totoral, concluded by Mr. Carranza at a cost of 117,000 $ fts.

Tucuman and Guacra, 90 miles, contracted for by Mr. Wallberg at $29,800 and mostly finished, except at Rio Colorado, where an estanciero stops the workmen.

Salta and Cobos, badly constructed by Nicoletta and Co. for $15,000, not yet completed.

Tinogasta to Copiapo; Don Adolfo Carranza has completed the 5 huts of refuge for travellers, at 3,000$ each.

BRIDGES.

Rio Tercero, at Villa Maria, contract made with M. Ville-Massot in 1873 to finish in 10 months; works suspended by a flood, and difficulties arisen with Government engineers who insist on sinking the foundations 15 feet more.

Rio Primero, in Cordoba. This new bridge has been much injured by the floods, as the builder had not sunk the foundations to the Tosca.

Saladillo; this bridge was built in 1871, and last year's floods covered it completely, 3 feet over all, but when they subsided it was not much injured, the repairs only costing 2,741$.

Sali; contractors Delacroix and Dodé, about half made, and 27,000$ paid on account; total cost to be 60,000$.

Pasaje, portion of the works fell in, the foundations being bad, and requiring to be sunk yet 5 feet.

Arias. This bridge is advancing slowly, but the work is well done. The contractor, Dupont, finds immense difficulty in getting materials.

Desaguadero; repairs effected at a cost of 1814 $ fts.

PORT OF BUENOS AYRES.

Bateman's port is impracticable. We excavated 39,900 cubic metres of mud and sand, for the experimental channel, but after the strong winds of August the soundings shewed that the channel was filling up at the rate of 10 feet a year. In the middle of December it had filled 3 feet. Taking the channel proposed by Bateman at 17 kilometres (11 miles) the annual dredging to keep the channel clear would amount to 1,683,000 cubic metres; this would require 60 dredges three times as powerful as the one in use, besides steam-tugs and flat-boats for each, involving an outlay of £300,000 sterling per annum. The cost of making Bateman's channel in the first instance, dredging 4 million cubic metres, would be £2,500,000 sterling; which is more than the total estimate. The experimental channel ordered by Congress was to cost 40,000$, but the outlay exceeded 114,000 $fts., besides subsequent small payments. The result shews how rightly the Department of Engineers declared the scheme utterly impossible.

WHARVES.

Boca.—The best proposal is one for $5090 ftes, but nothing is resolved, there being another which asks $400 a month.

San Nicolas.—This was opened in January, 1873, and there is a balance of $1623 ftes. coming to the widow of Peter Beare, C.E.

SANTA FE BREAKWATER.

A stockade is being constructed by Mr. Labourroire for $56,000, to be completed in 1876.

RIO DULCE BREAKWATER.

The flood last year threatened to wash away the city of Santiago. The National Government lent $1.100,000, and the engineer Montenach was ordered to repair to the spot. At first it was proposed to turn the course of the river for eight miles at a cost of $107,000, but afterwards it was found that 40,000 Bolivian dollars would suffice for a breakwater. Mr. Montenach and 500 men completed the works in four months at a cost of $1.21,500. The engineer labored so hard that he has been in bed for two months.

MENDOZA IRRIGATION.

Works stopped by the revolution and the engineer falling sick. An area of 26 square leagues near the Tunuyan has been levelled, and surveys made of 50 sq. leagues.

PILCOMAYO EXPLORATION.

Mr. Robertson ascended the Pilcomayo last July for 125 miles, finding from 27 to 39 feet of water all the way, with numerous bends, but no connection with Rio Contuso.

RIOJA BASIN.

Mr. Wurfflbain's surveys took 6 months; he proposes to construct a basin that will hold 782,859 cubic metres of water, and cost 122,000$fts.

IMMIGRANT ASYLUM.

This will hold 890 immigrants and cost 150,000$fts.

MARTIN GARCIA LAZZARETTO.

This must be large enough for 5,000 arrivals, covering 80 acres and surrounded by a 10-foot wall. It will cost 581,227$fts. and as Congress has only given $180,000 a portion will be constructed at first, suppressing the chapel and one wing. The San Martin huts of 1871 have been removed to Martin Garcia for temporary use.

CORRIENTES LAZZARETTO.

This work will be made with $20,000 voted by Congress.

GEN. POST-OFFICE.

Franchi and Matti are to have it completed by December, at a cost of $f. 90,000.

CAPITANIA & TELEGRAPH-OFFICE.

Diverio and Costa will have the edifice in Calle Mayo ready early next year, at a cost of $f.65,000.

ROSARIO CUSTOM-HOUSE.

Built by Rezia & Sala for $f. 134,000 was handed over last February. The adjacent house of Comas began to fall, and cost $10,000 to repair.

ACADEMY OF SCIENCES, CORDOBA.

Total cost will be $f.105,955, but as Government has only $32,000, a portion only will be built; contractor Luis Bertoli.

NATIONAL COLLEGES.

The following were repaired during the year: Buenos Ayres, San Nicolas, Rosario, San Carlos colony, Concepcion, Cordoba, Tucuman, Santiago, Catamarca, San Juan, Rioja, Mendoza, San Luis; besides five schools.

MARTIN GARCIA QUARRIES.

The stagnant pools of water threaten the health of persons on this island.

VILLA OCCIDENTAL.

The surveys and measurements are not yet completed.

WORKS FOR 1874.

So many railways and other works are on hand that the National Engineers' staff requires to be largely increased. Besides the works on hand, it is urgent to construct the port of Rosario with the Central Argentine Railway, to finish the Uspallata improvements, and to adopt some means for improving port accommodation at B. Ayres.

POMPEY MONETA.

MONTEVIDEAN LETTER.

June 20th.

The collections to-day have been rather poor, and the business done both in commercial circles and on 'Change very small. Deuda Interna speculators held their own, and the rates were kept firm, even showing an advance of half per cent. on yesterday's transactions. The exchange market was dull, and the rate may be considered as nominally 51 on London. Discounts are offering on Buenos Ayres at ½ per cent. without takers.

The sales on the Bolsa were as follows:—

Deuda Interna, 2nd Series.
130,000$ at 62½ per cent for end of month
50,000 at 62¾ do.
10,000 at 61¾ do, with option of 10,000 more.
150,000 at 60 for end of July.
20,000 at 29¾ do.
Progreso Oriental.
120 shares at 35 cash.

The rate at which these shares have sold at tend to show the effect that the failure of the Port scheme has had on them in diminishing their value.

The sale of twenty five thousand dollars of the late Oriental Bank was made to-day in the Bolsa vestibule at the low rate of 15½ per cent on their former value, a proof of the depreciation of that concern when notes that are considered as privileged can only obtain that rate.

The 'Inmobilario' shares also show a great depreciation in value having fallen from their former rate of 60 to 65 to thirty eight dollars per share.

We had a sensation to-day in the shape of a 'Bad Sovereign,' a well known merchant here was stuck with one and kindly showed it to his friends; the imitation is so good that it is almost impossible to distinguish the difference between a good and a bad one excepting in the ring; this may prove rather hard for collectors who have to receive thousands at a time, but in these days when sovereigns are at a premium it may not be so difficult as it formerly times.

The Steamer 'Saturno' of the Fluviales line arrived this morning from yours and the Uruguayan Ports and brought down about one hundred and forty passengers but only one lot of specie to A Montaldi of $1,779,77.

The steamer Villa del Salto of the Salteña left this yesterday with a large number of passengers most of whom were bound to the Inauguration of the Railway at Salto, the steamer was bedecked with flags and as I advised you yesterday I proceeded on board to see a magnificiently laid out table that did credid to all on board, and I frankly confess that I was sorry to come on shore, instead of partaking of the banquet and having the pleasure of seeing your goodselves this morning.

Apropos of banquets I hear that there are great preparations going on for the one to be given on St. John's day by the Masonic lodge here, which I believe is to be on a most sumptuous scale, exceeding all former ones.

Don Ambrosio Lezica of the firm of Lezica, Lanus and Fynn was warmly welcomed to-day by his numerous friends, also Mr Charles W Benn, agent for the Royal Mail Steam Packet Co. in your city.

I have heard of the following charters being made:—

British barque Chieftain, to load tallow and hides in Fray Bentos for the Channel to at 35s and 5 per cent primage,

Do. Mary Rillum, to load bones and hoofs in port for the United States at $f.6 and 5 cent primage.

Nowegian barque Worge to load do do and a half with 5 per cent primage.

British barque Henry Rankin to load at $f6.

Norwegian barque Dos Hermanos, to load do. at $f5 and 5 per cent primage.

PARIS LETTER.

(*From Our Own Correspondent.*)

May 18th.

When students commit, as of late, so many suicides, it must not be concluded that there is something rotten in the students' life of Paris. Collegians are here as elsewhere, youths who will have the light hearts that suit their years, and that will apologise for much of their naughtiness in advance. There are about 8000 students in Paris, which may explain why so many young persons are ever to be encountered in the streets; but then there are individuals neither students nor youthful, but who look young, thanks to their make-up and hair dyes, for it is not fashionable to carry about with you the evidence of the 'snow-fall of time.' Law and Medicine represent respectively 2000 and 3500 students and 100 professors. Law students are classed according to their years of standing,' some being on the rolls since a quarter of a century; having been 'born students;' they assert it is their fate 'to die' such. They are familiarly known both in law and medicine as 'Methuselahs;' it is they who represent their guilds when outraged public virtue has to be avenged or autocratic politics denounced; they are the 'depositaires' of the 'Rights' of man, and illustrate by their l[illegible] that his 'whole duty' consists in livi[illegible] in a cafe, sipping beer and sucki[illegible] pipes, with an occasional criticism on a professor or a Prime Minister. W[illegible] such hoary-headed students can nage to pass a fiscal examination. h[illegible]tory has rarely had to record that the[illegible] have ever found clients or patients but then politics remain open as compensation, and hence why in troubled times the members of the two professions in question figure s[illegible] large ly. It is estimated that two-thirds o[illegible] the total students apply themselves t[illegible] work in a serious manner, and [illegible] the best-conducted pupils are [illegible] belonging to the Polytechnic whilst the 'creme' of intellig[illegible] is to be found in the Nor[illegible] where there are 35 prof[illegible] pupils, imparting the [illegible] tion to be had in Fran[illegible]

According to the recently published report of Mr Chassaing, Inspector of Machinery, the Argentine Fleet is in an extremely seedy condition. Of the ten steamers composing it the Pavon is the only one in what Mr Plimsoll would admit as a seaworthy condition, while three or four of them are reported as worth nothing. It is clear, therefore, that the coming ironclads were not ordered a minute too soon.

A married man at the Mount had practical proof the other day of how extremely agreeable a strong minded woman can make herself when she so chooses. His amiable spouse warmed a poker red hot, gave him a stiff tickling with it about the ears and up the nostrils, then packed up every thing of any value in the house and saying "Adios Señor!" left him to his reflections. They must have been of rather a mingled kind.

The *Prensa de Belgrano* announces that Messrs. Agrelo & Co. are about to start a paper manufactory in that rising town. It also foreshadows a pecuniary crunch for the Municipality, which is almost as high 'up a tree' in a financial sense as its needy namesake of this city.

The Cordoba papers contain a long letter from Mr. J. Cornet, who has been a year in prison on some charge connected with the [illegible] of the Cais de Lonegitos. It is more a copy 'paddled his own canoe' back to the Boat House more dead than alive with cold. If this sort of thing is to continue it will be necessary to start a Humane Society and have stations provided on the banks of the Riachuelo, where dry clothes, hot drinks and other restoratives may be obtained at a moment's notice.

GUALEGUAYCHU RAILWAY.

Montevideo, June 19th, 1874.

To the Editors of the STANDARD,

Gentlemen,

In your paper of 16th inst., under the heading 'Department of the Interior,' and in your review of the report of Minister Frias, you say—

"The National guarantee of 7 per "cent has been given to the Billing-"hurst Rosario line, but not to the "Concordia and Gualeguaychu pro-"ject."

As this statement is likely to prejudice the concessionaires of the latter line, you will oblige me by publishing the present, in correction of your extract, or of the report you quote from, as the case may be, and the purport of which is to state—

"That the Concordia Gualeguaychu Railroad enjoys an Argentine Government guarantee of 7 per cent on a cost of $24,000 per kilometre, or say [illegible],000 per kilometre more than [illegible]nted to the Billinghurst Ro-[illegible]."

[illegible]ence to your past issue you [illegible]ver find that in the STAN-[illegible]d January last you gave [illegible]he terms of the contract, [illegible]on of the decree of the [illegible]irming the guarantee [illegible]Chambers.

At a late hour in the liquidation Cedulas stiffened: one sale—30,000 for end of month at 80½.

Discounts for first-class paper are not difficult on Cedulas ½ per cent valuation; 70 is the rate. Second-class bills 1½ to 1¾ per cent per month.

The second dredge will be repaired and working at the mouth of the Riachuelo on the 1st prox. The dredge at present at work is hardly powerful enough.

The fine Riachuelo property known as the Barraca Atalaya, belonging to Mr. Kelsey, will be sold by auction on 29th. The property is one of the best down there.

Mr. Coghlan informs us that the channel discovered at Ensenada is not across the bar into the inner port, but across the Punta Lara Bank to the pier. By this passage the rounding of the spit, which involves a distance of over twelve miles, is avoided for ships from outside, and the water is deeper. Vessels from Buenos Ayres, instead of following the narrow inner channel by Point Colares, can go down the river by the usual course, and cross into the river. Both entrances are now well buoyed, and pilots or others wishing for information can see the charts at the Central Station.

The well known estanciero firm of Musgrave & Inverarity is dissolved as appears by notice, owing to the retirements of Mr Inverarity.

H. E. Baron de Araguaya, Brazilian Minister will leave for Rio about the end of the month on leave. Mr Fleury, Secretary of Legation, will be chargé d'affaires.

There was nothing at all said on 'Change today about the auctions yesterday, and even the auctioneers did not come on 'Change; we suppose there was very little done.

The Gas meeting on Saturday night amounted to nothing; only 4 shareholders present. The meeting was adjourned 'sine die' for want of a sufficient number of shareholders to constitute a 'quorum'.

The barraqueros of Montevideo have formed themselves into a mutual society—for business purposes only, we believe. The 'gremio' is small but influential in the Mount, yet fully fifty years behind Buenos Ayres, and, indeed, it is improbable that the Montevidean barraqueros will ever command such a trade as their colleagues in Buenos Ayres, since the produce is not in the country, and there are barraqueros in this market who do more in a month than the most influential Montevidean barraquero does in half a year. To increase their influence, however, the Montevidean barraqueros have clubbed together, and from the columns of our interesting colleague the *Telegrafo* we glean that the fiscal committee of the society has been duly elected, and stands so—

President, Mr. Edward Vargas.
Directors, Mr. Edward E. Gomez.
James Caprario.
Gabriel Pagardoy.
Secretary, John M. Portillo.

The offices of the society are on the top of the Montevidean Bolsa. Now what this board intends to do no one, not even Buela himself, throws out a hint, but we suppose a push will be made to put up tallow to its once happy quotations, and compel the Oriental shepherds to shear their sheep next year with the new shears imported by Mr. L. H. Saunders.

Mr. Francis B. Arrancho, has been elected a director on the board of management of the Tramway Oriental. There is a tramway in Buenos Ayres that runs punctually and pays splendid profits, yet it has no board of management at all; it is called the Lacrosse tramway.

The ship broking firm of Sagory and Prugent, in Montevideo, is dissolved. Mr. Prugent winds up the old concern, and carries on the business; Montevideo being a great port of call, the ship brokers down there have very much to do, and they conceive, perhaps, not erroneously, that in their line they stand first in the Plate.

By far the most stunning news in the market to-day was the sudden run up lands have taken in Fray Bentos; prices that appear to the Buenos Ayres land men almost fabulous were paid up there last week. If the Calle Santa Fe, the Flores Road, or the green hills of Zamora, could be only shipped up to Fray Bentos, what a boon for this market. A Fray Bentian square was sold last week for 572 pats., and a solar in the town, 25x50, for 1,456 pats. There must certainly be something going on up there, and we commend the matter to Mr. Dennehy, the most active land broker in town. Perhaps another Liebig fabric is on the tapis. A friend who passed it in the steamer the other day says that he noted nothing about the place, save a huge pile of bones on the beach, that only implored the passing tribute of a sigh. However, the sales stand registered, and property is on a rise in that quarter.

The meeting at the Mortgage Bank on Saturday lasted for over 3½ hours. It was the first of the kind ever held since Cedula A was issued; it was attended not only by the Directors, but by a number of other experiences. The result, of course, is not divulged, although many brokers ran up to the Bolsa to see their friends return, and rake their hands, the envied news to share. The following sharp letter on this matter appeared in the *Republica* yesterday. As it bears on a subject of so much moment to the market we make no excuse for reproducing it in English—

"Dear Wilde,

"The Hypothecary Bank Board is much occupied with the Bolsa quotation of Cedulas, and without any reason, for the Cedula instead of being depreciated is far above its real value. At par Cedulas give 10 per cent interest, whilst the very best paper in the market cannot be discounted under 15. Yesterday the Board invited a few friends of acknowledged financial capacity, [illegible] Varela, V Lopez, N Riestra, and some others, to attend a meeting at the bank, and give their views on the project about to be laid before the Legislature. This scheme is to launch the Cedulas on the London market just as soon as the Government guarantees them. From this moment I tell you this business will wind-up badly. The Government can give no guarantee, for the simple reason that if it does it will floor Huergo and [illegible] who go to England to raise funds for the Central Railway and Provincial Bank. Clear heads worthies will not obtain money on [illegible]rable terms in London if on their heels [illegible]over an 8 per cent stock like the Cedula, [illegible] such special guarantees. It is obvious [illegible]emon will have their trip for nothing, [illegible] capitalists will, of course, prefer the [illegible]which bears the largest interest; moreover on earth would become of our other [illegible] London if we flood that market with [illegible] What the Bank Board has to do in [illegible]gency is very clear. Instead of giving [illegible]dulas on bills and 'vales,' charging building sites that can produce [illegible] or interest, let them give out on nothing [illegible]esn't pay a rent. Let them limit the [illegible]n of A series, let them look to the valuation by make of properties, so that we shall [illegible]ve a repetition of those auctions which [illegible]hat those properties from one cause or [illegible]have been far too highly appraised. The [illegible]nt money gets a little easier, Cedulas [illegible]re so well guaranteed, will recover their [illegible] without the aid of the Government or [illegible] London agencies. It is the very height [illegible]rdity to think that any project or measure [illegible]rove the value of Cedulas, with the money [illegible] as it at present stands. In fact the price [illegible]s ought to be quoted on the Bolsa to-day is [illegible] nothing higher.

"Yours truly,

[illegible]is so much sound, common sense in the [illegible]etter that on the Bolsa to-day even the [illegible]ls admitted that the writer, whoever he [illegible]: the letter is very generally attributed [illegible]reign banker. Mr. Madero, if he [illegible] Chimborazo, may cast one longing, [illegible]k behind, if an 8 per cent Buenos [illegible]ernment Guarantee is going to be [illegible]out London.

[illegible]kon, the Secretary of the Government [illegible]pposes that wages are down or labor [illegible] the contrary, he can find employ-[illegible]3,000 good, industrious emigrants; [illegible]ch is, the Italians and Spaniards [illegible] Department, informs us that it is an [illegible]t won't leave this city. All the Pro-[illegible]for hands, but none of the emigrants care about going to the Provinces, and hence it is that our streets are crowded with new arrivals looking for employment.

We take the following from the London papers:—

"The B. Ayres and Ensenada Railway.—The meeting was held on the 30th April, at the offices, Old Broad-street; Mr. L. Simpson in the chair. The report, which was taken as read, stated that the gross receipts from traffic on the line, as appear from the returns furnished by the contractors for the first six months of 1873, amounted to £15,726, being equal to an average of £17 6s 7d. per mile per week upon the 35 miles of line open, and for the second six months of the same year to £16,064, being equal to an average of £17 13s. per mile per week. The line being worked by the contractors until the 31st December, 1875, at 45 per cent. of the gross receipts, the sum of £17,485 became payable by them as the Company's proportion of such receipts for the year 1873. The Directors have paid to the preference Shareholders an interim interest or dividend at the rate of 7 per cent per annum for the half-year ended 30th of June, 1873, upon the perference shares issued, and out of the net balance on the 31st December, 1873, a similar dividend will be paid for the second half-year on the same shares. This will absorb £8,403 sterling, and leave a balance £1,112 sterling to be carried forward. The chairman, in moving the adoption of the report, said that the progress of the works had been satisfactory, and he had no doubt that everything that was required would be completed by the end of the next six months. The pier was now nearly finished, and the depth of water was sufficient for the largest vessels in the trade. Mr. C. S. Hayne, deputy chairman, seconded the resolution for the adoption of the report. In reply to a question, it was stated that the contract sum was £689,000, and that £20,000 had been reserved to pay office and other expenses. The report was then adopted, and a dividend on the preference shares at the rate of 7 per cent per annum was declared for the half-year ending December 31st last.

"Buenos Ayres Great Southern. The traffic receipts on this line for the week ending March 29th, 1874, amounted to £4,899 against £4,300 for the corresponding week in 1873; increase £599. The aggregate receipts from January 1st, 1874, to date, amounted to £57,984 against £56,053 for the corresponding period in 1873, showing an increase of £1,931. Week ending April 5th, 1874, £4,219 against £4,535 for the corresponding week in 1873; decrease £317. The aggregate receipts from January 1st, 1874, to date, amounted to £62,204, against £60,588 for the corresponding period in 1873, showing an increase of £1,616."

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM,
E. DE LAS CARRERAS.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
